

Kent Robert B. Dela Cruz

kent.code.delacruz@gmail.com | +63 9459765702 | San Jose City, Nueva Ecija

SUMMARY OF QUALIFICATIONS

Software Developer with hands-on full-stack experience using React.js, Next.js, PHP/Laravel, and relational and NoSQL databases. Contributed to the revamp and enhancement of a live university admissions platform during an internship, improving frontend UI/UX, implementing interactive features, and updating backend functionality. Experienced across the full development stack, from user interface implementation to API integration and database management.

RELEVANT EXPERIENCE

Central Luzon State University - Office of Admissions (OAD)

Science City of Muñoz, Nueva Ecija, Philippines

Web Developer Intern

February 2025 - June 2025

- Rebuilt the admissions website front end alongside OAD staff, aligning the UI/UX with CLSU's design standards and improving usability for prospective applicants.
- Implemented JavaScript interactivity, dynamic forms, client-side validation, and conditional navigation to reduce friction in the application flow.
- Worked directly with a staff supervisor to complete the required features across the website under real deadlines.

Personal Projects

ShopCore – Next.js, TypeScript, MongoDB, Tailwind CSS, Fake Store API.

Live Demo: <https://shop-core-kohl.vercel.app/>

GitHub: <https://github.com/kentcode-002/ShopCore.git>

- Built a responsive e-commerce web application using Next.js and TypeScript, integrating the Fake Store API to dynamically display product catalogs and product details.
- Implemented MongoDB-based data management for storing and handling application data, demonstrating full-stack development practices.
- Developed reusable UI components with Tailwind CSS, implementing responsive layouts for product browsing, navigation, and shopping workflows.
- Designed a modern user interface focused on usability, performance, and mobile responsiveness.

Smart Inventory Tracker – Next.js, TypeScript, Supabase, Prisma, PostgreSQL, Tailwind CSS.

GitHub: <https://github.com/kentcode-002/smart-inventory.git>

- Built a full-stack SaaS inventory system with authentication, role-based access control (Admin/Staff), and protected routes using Supabase Auth and Next.js middleware.
- Implemented product management, stock adjustment, supplier tracking, and transaction recording with real-time low stock alerts and notifications.
- Designed a normalized PostgreSQL database schema with Prisma ORM handling relational data across products, categories, suppliers, transactions, and inventory logs.
- Built a responsive dashboard with sales analytics, inventory value tracking, and CSV export

using Recharts and TanStack Table.

TECHNICAL SKILLS

Programming Languages: JavaScript, TypeScript, PHP, Python

Frontend: React.js, Tailwind CSS, Next.js

Backend: Laravel, Django

Database: MySQL, MongoDB, PostgreSQL

Other Tools: Git, GitHub, Microsoft Office, Google Workspace

EDUCATION

Central Luzon State University

Science City of Muñoz, Nueva Ecija, Philippines

Bachelor of Science in Information Technology

August 2020 - July 2025
